POSITIVE SCHOOL CLIMATE & CULTURE

Villa of Hope School uses a **Multi-Tiered System of Support (MTSS)** to promote student success and an overall positive school climate and culture. MTSS is a layered framework of teaching and supporting positive student behavior. This means that greater and greater intensity of supports are available and provided based on how students respond to lower levels of support.

Tier 1 Primary Prevention or “Universal” Supports are provided to all students. School Tier 1 supports include:

- Behavioral Expectations – “Be Safe, Be Respectful, Be Responsible” (see matrix next page)
- Behavioral Lesson Plans – teaching students how to be successful with the Behavioral Expectations
- School Wide Acknowledgments – a system for reinforcing positive student behavior and efforts
- Mild Classroom Based Consequences – a trauma informed system for responding to student behavior which does not meet the Behavioral Expectations – the emphasis is on maintaining the student in the classroom by responding in a manner that reflects the philosophical shift from “What is wrong with you?” to the trauma informed perspective of “What happened to you?”

Tier 2 Secondary Prevention Supports are provided to students who need more support than Tier 1 provides in order to be successful with the Behavioral Expectations. School Tier 2 supports include but are not limited to the following:

- Check In/Check Out (CICO)
- Small Groups
- Mentoring/Tutoring

Tier 3 Tertiary Prevention Supports are provided to individual students who need more support than Tiers 1 and 2 provide in order to be successful with the Behavioral Expectations. These are highly individualized plans, developed collaboratively with the student and his/her parent guardian, and documented in their student record.

MTSS relies on components of systems, practices, and data to achieve positive outcomes for students, staff, and the Schools overall. It is related to Positive Behavior Interventions and Supports (PBIS) but provides a broader framework that can be applied beyond student behavior and school climate and culture to include academic and trauma-informed supports as well. This focus on alignment of interventions helps the school to streamline efforts and work effectively and efficiently toward student and program goals.

The school-wide expectations will be introduced and taught to all students at the beginning of each school year. It will also be reviewed and/or retaught after school breaks, when expectations are not being followed, on a regular basis as part of classroom management, or whenever deemed necessary.

We support students in expressing their individuality appropriately and comfortably to display a positive image.

We ask that parental/guardian and residential teams support our youth by clearly communicating our expectations for appropriate dress to our Villa of Hope students. If students come to school inappropriately dressed, students may borrow appropriate clothing from the program or the parent/guardian or residential staff will be contacted to bring appropriate clothing to school.

***Building administration or those acting in the role have authority to enforce or modify these expectations as needed to ensure health and safety of staff and students attending Villa of Hope School.

- Searches will always be conducted with two staff members, one being the same gender of the student subject to search.
- Under no condition will any member of the school participate in a police search, although administration reserves the right to contact law enforcement.

PROCEDURES INVOLVING ADMINISTRATORS, TEACHERS, OTHER SCHOOL STAFF, PARENTS AND STUDENTS

All members of the school community are expected to identify potential and actual disciplinary issues as they occur in the school building, on or about school property, or at school functions. School personnel should either deal directly with the problem or refer it to an appropriate member of the staff, behavioral support team, counselors, social workers and/or administrators. Students are encouraged to communicate information about behavioral problems to an appropriate member of the staff. Students are expected to be cooperative and assist school personnel in the investigation and identification of discipline issues in violation of this Code of Conduct:

1. An appropriate staff member will resolve the problem immediately by following Villa of Hope School policies and procedures.
2. Referral cases which are not resolved immediately and are in need of further inquiry and/or information, shall be dealt with by an administrator, counselor, social worker or behavioral support team. This inquiry process may include information from students, staff members, parents, and community resources. Resolution of the problem may involve group interaction: (e.g., by support staff, building administrative team or designee, etc.).
3. Where required by law, and under such other circumstances as are deemed appropriate by school authorities, problems involving the breaking of local, state and federal laws shall be reported to the appropriate legal authority.

2. The person making the initial determination of such a violation may take immediate and appropriate action to abate the violation and, if authorized, may further administer appropriate disciplinary measures at the time such violation is determined. Such individual may defer a determination of the appropriate disciplinary measures for a reasonable period of time for further investigation and action by building administration.
3. The respective building leadership, or their designees, shall have responsibility for the review of the findings of the alleged violation of these policies and, insofar as authorized by law, shall have the authority to administer appropriate discipline for violations.

DISCIPLINARY ACTION

1. Violation by Students – a student who has been found in violation of this policy shall be subject to such disciplinary action as set forth under the “Penalties” section as deemed appropriate under the circumstances. Parents/Social Worker/Counselor/Program Manager/Representative for Student will be notified either orally or in writing, by the Director of Education or his/her designee, depending on the nature of the violation. It is the policy of the school that disciplinary problems are handled promptly and appropriately by Villa of Hope School representatives most directly concerned, and that building leadership be involved only in more serious disciplinary problems.
2. Violation by Staff Members – faculty and staff members found in violation of Villa of Hope policies are subject to dismissal, suspension, termination or other disciplinary action. Disciplinary action involving faculty and staff members shall be consistent with the provisions of the New York Education Law and New York Civil Service Law.
3. Violation by a Visitor – any visitor who is deemed to be in violation of this policy shall be informed of the alleged violation and asked to desist. If necessary, the person may be asked to leave Villa of Hope School property and upon failure to do so, or if otherwise deemed appropriate, law enforcement authorities may be called upon to assist.
4. The Justice Center will be notified, as required.

PENALTIES AND USE OF OUTSIDE AGENCIES

Violation of the code of conduct may result in, but not be limited to, verbal warnings, conference with the school administrators or designee, remediation and mediation between affected parties, that may include restorative practices, in-school support room, and or out-of-school suspension in accordance with NYSED regulations.

Restorative practices are processes that proactively build healthy relationships and a sense of community to prevent and address conflict and wrongdoing. Restorative practices are increasingly being applied in schools to address behavior, rule violations and to improve school climate and culture. Restorative practices can improve relationships between students, between students and educators and even between educators. Taking responsibility requires understanding how the behavior affected others, acknowledging that the behavior was harmful to others, taking action to repair the harm and making changes necessary to avoid such behavior in the future. The use of restorative circles gives everyone an equal opportunity to speak and be listened to. In addition, restorative circles improve communication skills, develop empathy and strengthen relationships.

The school will track suspensions per NYSED guidelines and refer to local school districts' CSE if a change in placement is warranted. Suspension will be conducted consistent with part 200 regulations for individuals with disabilities.

The following disciplinary measures are among those deemed appropriate. The list is not intended to be exhaustive.

The disciplinary measures for students may include one or more of the following activities:

1. Individual appropriate action by teacher, staff or administrator.
2. Parent/Social Worker/Counselor/Program Manager/Representative for Student conference-collaborating effort to solve the problem.
3. Removal from a class by a teacher, administrator or behavioral support team.
4. Loss of privileges.
5. Loss of Villa of Hope transportation privileges.
6. Involvement of appropriate legal agencies and actions.
7. Restitution.
8. Other.

RIGHTS OF APPEAL

The discretion to modify discipline on a case-by-case basis considers the following:

1. Age of student
2. Prior disciplinary record
3. Belief that other forms of discipline may be more effective
4. Input from team of teachers, counselor, social worker, parent/guardian and/or others
5. Extenuating circumstances
6. Disability classification

Authority for the school conduct and discipline is delegated to the Director of Education. Any individual aggrieved by a finding of violation of this policy, and/or the disciplinary measures resulting therefrom, may appeal to the Chief Compliance Officer.

CORPORAL PUNISHMENT

Corporal punishment is any act of physical force upon a student for the purpose of punishing that student. Corporal punishment of any student by any Villa of Hope School' employee is strictly forbidden.

DISCIPLINE PROCEDURES FOR STUDENTS WITH DISABILITIES

Villa of Hope School will comply with all state and federal laws regulating discipline procedures for students with disabilities.

The disciplinary procedures for students with disabilities have been developed to:

1. Promote early intervention and avoid escalation of behavioral or other adjustment problems;
2. Examine and respond to behavior as it relates to the disability; and
3. Provide for modifications of instructional program, services and/or placement, in an expedited fashion to avoid disruption of the student's education.

It is intended that behavior which is related to the disability and does not present a serious danger to self or others, should be dealt with through modification of the instructional program, MTSS, behavior support plan, services or placement rather than the suspension process. This would include conferences among the Teacher, Staff, administrator, and the Parent/Social Worker/Counselor/Program Manager/Representative for Student to attempt to resolve the problem.

In situations where the behavior is not related to the disability and/or the behavior does present a serious danger to self or others insofar as situations where alternative procedures and methods that do not involve the use of physical force cannot reasonably be used, Therapeutic Crisis Interventions (TCI) may be used only to:

1. Protect oneself, another student, teacher or any person from physical injury.
2. Safely remove a student whose behavior interferes with the orderly exercise and performance of Villa of Hope School functions, powers and duties and/or if that student has refused to refrain from further disruptive acts.

These procedures have been developed to avoid prolonged periods of time without any instructional program for students and/or to minimize the staff time involved in the long-term process. (NY State Regulations of the Commissioner of Education Part 200 Students with Disabilities and Part 201 Procedural Safeguards for Students with Disabilities Subject to Discipline).

VISITORS TO THE SCHOOL

The school administrator or his/her designee is responsible for all persons in the building and on the grounds. For these reasons, the following rules apply to visitors to the school:

DIGNITY FOR ALL STUDENTS ACT – “DASA”

Bullying has been described as an unwanted, aggressive behavior that involves a real or perceived power imbalance. The behavior is repeated, or has the potential to be repeated, over time. Bullying can occur before and after school hours, in a school building or at locations such as on a playground or on a school bus while a student is traveling to or from school, or on the Internet. Students who are bullied and those who bully others may potentially have serious and lasting trauma. Characteristics include:

- **An Imbalance of Power:** Students who bully others use their power, such as physical strength, access to embarrassing information, or popularity, to control or harm others. Power imbalances can change over time and in different situations, even if they involve the same people.
- **The Intent to Cause Harm:** Determining the intent of an individual who demonstrates bullying behaviors may be difficult. The perception of the person who is the target of those behaviors should also be considered.
- **Repetition:** Bullying behaviors generally happen more than once or have the potential to happen more than once.

Examples of bullying include, but are not limited to:

- **Verbal:** Name-calling, teasing, inappropriate sexual comments, taunting, and threatening to cause harm.
- **Social:** Spreading rumors about someone, excluding others on purpose, telling other students not to be friends with someone, and embarrassing someone in public.
- **Physical:** May include hitting, punching, shoving, kicking, pinching, spitting, tripping, pushing and taking or breaking someone’s things.
- **Micro-aggressions** are brief, everyday exchanges, verbal and non-verbal, that send messages to certain individuals that because of their group membership, they have little worth. These small exclusions, expressions, and gestures are often overlooked as contributing to negative school climate and over time can cause emotional harm.

Prevention:

The school setting provides an opportunity to teach students, and emphasize among staff, that cooperation with, and respect for, others is a key value of Villa of Hope School. The program includes a Code of Conduct that is reinforced for all students and staff. Students may also engage in counseling and speech services designed to facilitate appropriate peer relationships. When a student is identified as being engaged in inappropriate conduct or a potential victim of inappropriate conduct, the level of supervision may be raised. Additionally, the positive school-wide supports encourage productive and positive interactions between students, staff, and families.

Intervention:

In the event of an actual incident of bullying or harassment, all staff at Villa of Hope School are trained in TCI interventions to protect all individuals present and preserve safety. Should any physical interventions be required to protect individuals from imminent and significant harm, the family will be notified consistent with Villa of Hope School policy and NYSED regulations.

Reporting and Investigating:

Students who have been subjected to harassment, bullying and/or discrimination, persons in parental relation whose students have been subjected to such behavior, or other students who observe or are told of such behavior, are encouraged and expected to make verbal and/or written reports to school staff, and/or school administrators.

All school staff, when aware of harassment, bullying and/or discrimination, are required to orally report the incident(s) immediately to the Director of Education, or his/her designee, and report it in writing. Depending on the severity of the incident, a referral may need to be completed and submitted, per that procedure, which includes filing the report prior to end of the school day. Staff will take appropriate safety measures and complete the Dignity Act reporting form. This form will be submitted to the school's Dignity Act Coordinator.

Complaints shall be documented, tracked, investigated, and remediated in accordance with the regulations and procedures and the school's Code of Conduct. If a staff person is unsure of the reporting procedure, he or she is expected to inquire about how to proceed by speaking with his/her supervisor.

The results of any such investigation shall be reported to both the targeted student and the alleged offender, as well as their respective persons in parental relation. If either party and/or their respective persons in parental relation disagree with the results of the investigation, that party should be advised that they may contact the Director of Education or Chief Compliance Officer.

In certain circumstances, disclosure to the persons in parental relation on the basis for which a student is harassed, bullied and/or discriminated against may unintentionally result in additional negative consequences to the student's health and well-being due to the sensitive nature of the subject of bullying. Prior to notification of any person in parental relation regarding an incident of harassment, bullying and/or discrimination, school authorities must consider notification as they would any other educationally-relevant decision, taking into account the health, well-being, and safety of students involved in the incident.

To accommodate the above, the Director of Education or designee may seek counsel from the Chief Compliance Officer to determine the best course of action. In some cases, such as where a student is being targeted with anti-LGBTQ+ language, if there is reason to fear that that student may face negative consequences by notifying his/her persons in parental relation, regardless of how she/he actually identifies, this should be taken into account in the decision whether to notify a person in a parental relationship.

Student Disciplinary Consequences/Remediation:

The primary focus of this policy is on proactive prevention, when harassment, bullying and/or discrimination occur, student offenders will be given a clear message that their actions are inappropriate, will not be tolerated, and are inconsistent with the concepts of tolerance, respect for others, and the fostering of civility in schools in order to provide a safe and supportive school environment for all students. Student offenders will receive in-school guidance, such as restorative practices, on making positive choices in their relationships with others. If the behavior rises to the level of a criminal act, the school administrator or his /her designee shall contact law enforcement promptly.

The response to a student's violations of the policy shall be age-appropriate and developmentally-appropriate. Consequences, if appropriate, for a student who commits an act or acts of harassment, bullying and/or discrimination shall be unique to the individual incident and shall vary in method and severity according to the nature of the behavior, the developmental age of the student, the student's previous disciplinary record, other extenuating circumstances, and must be consistent with the school Code of Conduct.

Investigating and Responding to Allegations of Staff-to-Student Harassment, Bullying and/or Discrimination:

In the case of a report of alleged staff-to-student bullying: reporting, investigation, and response must follow all applicable school policies and procedures, including immediately contacting the Justice Center and an administrator, and all steps must be taken to immediately provide protections to the student.

Non-Retaliation:

Any person having reasonable cause to suspect that a student has been subjected to harassment, bullying and/or discrimination by a student and/or an employee who, acting reasonably and in good faith, either reports such information to school officials, to the Commissioner of Education, referring school district, The Justice Center, or to law enforcement authorities or otherwise initiates, testifies, participates or assists in any formal or informal proceedings, will have immunity from any civil liability that may arise from the making of such a report or from initiating, testifying, participating or assisting in such formal or informal proceedings. Schools and their respective employees are prohibited from taking, requesting or causing a retaliatory action against any such person, who, acting reasonably and in good faith, either makes such a report or initiates, testifies, participates or assists in such formal or informal proceedings (Education Law §16).
